

Education overview: Solving the password problem plaguing your organisation.

With 81 percent of data breaches caused by weak or reused passwords, there is no better time to deliver password management with LastPass to your campus.

Affordable and customisable turnkey packages

Our turnkey, affordable packages are designed to make it easy for you to provide secure password management to every person on campus – students, faculty, staff and even alumni!

Each LastPass package includes unlimited quantities of the LastPass Enterprise and Premium services. Typically, LastPass Enterprise is deployed to faculty and staff, while LastPass Premium is offered to students, but the choice is yours to make.

Simplified deployment and unlimited support

LastPass offers streamlined fulfillment tools and educational resources to simplify a campus-wide rollout.

Customised customer success support is provided to ensure you are getting maximum value out of your purchase.

Proven security model

LastPass is trusted by more than 43K businesses and 16.5 million users worldwide. We take your security seriously. At every

step, we've designed LastPass to protect what you store, so you can trust LastPass with your sensitive data.

LastPass is SOC 2 Type II compliant. This detailed review of our controls and processes is a gold standard for confirming the security and reliability of LastPass.

Give students, faculty and staff the power to secure their digital life:

- LastPass reliably captures every password at login, and fills them in during the next visit.
- Remember the master password and forget the rest.
- Whether on a desktop, laptop, smartphone or tablet, accounts are backed up and synced.
- The built-in password generator creates long, randomised passwords that protect against hacking.
- Conveniently and safely share passwords and notes with anyone.

Universities using LastPass include:

- University College London (UCL)
- London Metropolitan University
- University of Nottingham
- Harvard University
